DISCLOSURES

In compliance with Regulations 16(2) of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, as amended

Part A : Statement Of Risk

All investments in shares or options are subject to risk as the value of shares may go down or go up. You should carefully consider all the information in this Scheme, including the risks and uncertainties described below, before making an investment in the Equity Shares. If profitability and financial condition of the Company gets affected, the price of our Equity Shares / Options could decline, and you may lose all or part of your investment in the Equity Shares / Options. Unless specified or quantified in the Scheme, we are not in a position to quantify the financial or other implication of any of the risks.

In addition, the options are subject to the following additional risks:

- a. Concentration: The risk arising out of any fall in value of shares is aggravated if the employee's holding is concentrated in the shares of a single company.
- b. Leverage: Any change in the value of the share can lead to a significantly larger change in the value of the options.
- c. Illiquidity: The options cannot be transferred to anybody, and therefore the employees cannot mitigate their risks by selling the whole or part of their benefits before they are exercised.
- d. Vesting: The options will lapse if the employment is terminated prior to vesting. Even after the options are vested, the unexercised options may be forfeited if the employee is terminated for gross misconduct.

The Company and the management cannot give any assurance or guarantee and do not take any responsibility regarding the market price of the Share(s) allotted on exercise of the options granted under the Scheme.
